AGAINST CARLYLE HARRIS.

RECORDER SMYTH DECIDES THE MO-TION FOR A NEW TRIAL.

He Herlews All the Addaytta Submitted by Barris in Support of the Motion and Dieposes of Them Either on the Ground of Incredibility or Innemisability on Extdence-They Would Not Have Changed the Verdict, He Says, If Presented at the Trini-How Mrs. Harris and the Condemned Man Took the News-Harris's Only Hope Now is for Executive Clemency.

Carlyle W. Harris is not entitled to a new trial, and in accordance with this decision rendered yesterday by Recorder Smyth the young medical student will be arraigned in the Court of General Sessions on Monday and pronounce the death sentence on him. Harris has no further appeal except to the Gover-

nor for executive clemency.

There was no precedent for the scene in the Court of General Sossions yesterday when the Recorder's decision was delivered. The widespread interest in the fate of the young man was illustrated by the clamor of 500 people for admission as soon as the door of Part IL. was opened. Few of them got by the door-The crowd increased, and the cor ridors of the Court House were filled. One by one favored ones were admitted to the court room until it was filled, and yet the crowd outside seemed to be larger. And it stayed hour after hour until a few minutes before 1% o'clock Court Clerk Carroll forced his way into the building with a roll of paper in his hand. He was known to have been at the Recorder's office. He was recognized by the re-porters, who called to him to know the decis-"The motion is denied." he called back.

Instantly the word went back and forth through the crowd. It was passed out into the street. Every one within gunshot heard almost in a moment. Joe Moss of Howe & Hummel's firm was in the court room waiting to carry the news to his office, where the mother of Harris was waiting to hear it. He dashed out and up the street the instant that Clerk Carroll gave the news. Yet with all his swiftness the fact that the motion had been denied got to the office before him.

First a boy rushed in and blurted out, "It's against him." He was followed by a man who had been up the street far away from the Court House. "Is it true?" this man demanded. Joe Moss got in after this man. Fortunately Mrs. Harris was not there. She had waited until 1 o'clock with Mrs. Robinson, who keeps the boarding house where Miss Waddell, one of the young ladies who made an affidavit for Harris, lives, and Mr. C. A. Montgomery, a friend of Harris's. The news was to have come by telephone, and every one of the dozen times the telephone bell had rung she had rushed to it trembling with excitement and fervent hope, only to sink again in almost a state of collapse when the telephone boy told her the message was not from the

"Well," said Harris, "I know there is no appeal from this decisions! I suppose there is nothing left to do but to go to Gov. Flower."

By the Warden's orders Herris was taken to cell 11, opposite the one which he had occupied, and was tripped. His clothing was taken to outside and even the seams were searched. His eyeglasses and a pear nail cleaner were taken from him. Then his clothing was given back to him and he was locked in the new bare cell. Reeper Scully remained at the door on watch.

back to him and he was locked in the new bare ceil. Keeper Scully remained at the door on watch.

Mrs. Harris got to the prison just as Moss came out. She shock herself loose from her friends and made for the gate guarded by the lat and stolid keeper, who blocked her way.

"What do you mean?" she demanded. "I'm going to see my boy."

"Not now," said the keeper roughly.

"Warden Fallon told me I might come and see my boy any time," said Mrs. Harris, trying to push the man aside the Harris, trying to push the man aside the railing toward the warden's office, and then she saw Moss. She seized him by the arm. Her face was the picture of despair as she said: "Oh. Mr. Moss, tell me the truth. Tell me the truth. I am ready to hear it."

"It's against us," said Moss.

Mrs. Harris noither screamed nor fainted. But a little while before at the hotel she had been talking cheerlly of what she and "Carl" would do when he got out in the summer. She had planned a trip to Vermont. The dreadful suspense she had endured in the walk from the hotel had told on her. She was now as if frozen. Her eyes were set and staring. Her mouth was half open as if to speak, but she uttered not a sound. Her companions spoke to her, but she seemed not to hear. Her face was drawn and haggard. There was an indefinable expression of pain in it. Her hands were clenched until the finger nails seemed driven into her paims. She sat thus for several minutes. Then the muscles of her face and body again relaxed and she moaned. The first words she said were. "Just as I expected."

When Mrs. Harris recovered she spoke extended. "I want to see my poor

The first words she said were. "Just as I expected."

When Mrs. Harris recovered she spoke excitedly. She said: "I want to see my poor boy. My poor boy! I must see him! Get the Warden! Get the Warden quick!"

The Warden did not come for five minutes. When Mrs. Harris saw him she jumped up, and, pointing her finger at him, said loudly: "Oh, you wicked, wicked man! Why do you make me wait? I must see my poor boy."

"You can't see him now." said the Warden. Mrs. Harris planted herself before him. She clasped her hands in appeal and begged.

"Oh, please let me see my boy."

"Oh please let me see my boy."

"Oh please let me see my boy."

"At warden, kindly. Mrs. Harris rushed into the private office. The Warden followed her and closed the door. He told her she must calm herself. He explained to her that her son could no longer have the pyivileges he had enjoyed, and that every time she visited him she must submit to being searched.

"All right, all right," she cried, loud enough to be heard outside. "but hurry, hurry."

A few moments later she came out, and was taken to the female prison, where a woman teeper searched her, and then she hurried

The reporter explained that the Recorder had said that while Miss Wallace's affidavit might be true, the facts it recited were not legal evidence within the law.

Not legal evidence?" said Harris. "Not legal in the shape they are in? They are not legal because enough facts are not recited? Well, those facts that are needed would have come out had we had the chance to get the girl on the stand."

come out had we had the chance to get the girl on the stand."
He asked then about the affidavit of Miss Waddell. Of Miss Jackson's he said; "I' suppose they declare she perjured herself because of Choate's affidavit. Tell me, does the Recorder anywhere in his decision admit that Choate is a perjurer?"
When told that Dr. Kinmouth's affidavit had been combated by affidavits presented by the District Attorney setting forth that Dr. Rinmouth had told several contradictory stories, he exclaimed: "And I am to be sent to death on testimony which I have never seen! I have tried to see those affidavits. I have sent to my counsel for them time and time again. He could not get them, nor could I. This is America and the bineteenth century, and aman is to be sent to his death on probably perjured affidavits which he has never seen, made by persons whom he has never heard of. It is an outrage, you must admit. The people will see it."

At this point a keeper came with dinner. It

At this point a keeper came with dinner. It consisted of a plate of peas, two pieces of toas, and acup of coffee. The cell door was half open when Harris saw the food. "Take it away," he said. "Take it up stairs and give it to some poor fellow who needs it. I don't want it." The keeper started away. The meal was seized greedily by the Italian Pollaro, who is waiting to be taken to Sing Sing for life for murder.

Harris continued talking with The Sun man. He asked how the decision had been received generally, and smilled bitterly when told that many persons thought him guility, though his friends still believed in him. He was told that the Recorder had commented on his failure to exclain away suspicious facts in the affidavit he made, saying that he had the chances to do it if he could.

"I had no chance to explain these things," he said. "My counsel told me that I could not do it. The Recorder himself told me I could not. I had no chance at all until I submitted to him my brief on the case. In that I explained a few of them. The fact remains that I am convicted without ever being heard save by the newspapers, and the great majority of the American public who read have been my jury, then, I am not guilty by their verdict. You may say for me that I am very happy, even if I have to die. The community has learned from the affidavits of witnesses, with no motive to tell other than the truth, that my unfortunate wife was addleted to the use of the drug, an accidental overlose of which was the probable cause of her death."

A moment later Harris said: "It isn't life I care for. I'm not afraid to die, I am conscious of my own innocence. I feel that the public believe me innocent. I am satisfied now."

He would not talk about his plans to secure
a commutation. During this interview Harris
stood most of the time smoking a cigarette.
He was very pale, but he did not appear to be

Mr. Hummel said that no time would be lost in making an application for a commutation of sentence, and he believed that the Governor would act favorably.

Recorder Smyth's decision is 14,500 words long. In it he discusses each affidavit presented by Harris. He declares that Mrs. Frenette and her daughter, Ethel Harris, committed perjury; that Miss Jackson and Miss Wallace trified with the truth to an extent that made their affidavits valueless, and that even it all they said were true their testimony as given in the sflidavits could never be considered legal within the sense of testimons. He says that Drug Clerk Leflerts and Dr. Kinmuth of Asbury Park are not worthy of belief, and he lays great stress on several affidavits made by Choate in contradiction of all of Harris's affidavits. Of Harris's own affidavithe says:

"It only reaffirms the plan of not guilty."

They were the rew when the news got out. The news was told to Mr. Montgomery by an Eventson Sun reporter, and he intimated it to Mrs. Harris. She got up from the table and hurried out of the place, supported on either side by her companions. They went directly to the Tombs. She could barely stand at times during the walk. She looked from one to the other of her companions as if trying to read some sign of hope in their faces.

When the news of the decision was thus partly broken to his mother Carlyle Harris was sitting in his cell still ignorant of his fate. Joe Moss and twenty reporters were having a heat-sed discussion with a fat and stolid gatekeeper about the propriety of leiting the condemned man know his fate. The gatekeeper won the argument, for he would not let a person by the face will be a successful to the way. Harris was sitting at the sed in an and said. ARSENIC IN THE FEED.

The Horses, Cow, and Chickens of a New Jersey Farmer Poisoned,

SOMERVILLE, N. J., March 14 .- Charles Duffield, a farmer living near here, got up early yesterday morning, and, as is his custom, went out to the barn to feed his stock before getting his own breakfast. He went to the feed barrel, which is kept in a corner of the barn, and, with a four-quart measure, gave his cows, horses, young colt, and fifty chickens their morning meal. Then he went to his breakfast. Half an hour later, on going to the barn, he found two of his horses dead and one cow dying. The coli was on the barn floor lifeless, while all of the chickens lay cold and stiff in death. An empty paper that had apparently contained powder of some kind, which was found beside the feed harrel, aroused Duffield's suspicions, and he brought some of the feed to Somerville and had it analyzed. Traces of areans were found. Duffield says that to his knowledge he has not an enemy in the world.

to Not Yet Beelded Whether Van Cott Will Be Allowed to Serve Ont His Term-Fred Grant to Be Retained as Minister to Austria-Secretary Hoke Smith Pavors Oberley for Commissioner of Indian Affatre-Nepotlam Not Dead in the Senate,

WASHINGTON, March 16.-Postmaster-General Bissell says he has not received a single application for the Postmastership at New York city. He has heard the names of a number of gentlemen suggested in various quarters, but so far the records of the department de not contain a formal application for that important office. If Mr. Pearson had remained in office his four years would have expired on the 5th of next month. It is not yet decided whether Postmaster Van Cott will be permitted to serve four years from the date of his appointment in place of Mr. Pearson or whether his term of service will be dated from the time of his individual appointment. Fostmaster-General Bissell says he has been too busy trying to receive all the visitors who have called upon him during the past ten days to consider the New York Post Office case. He is making rapid progress in mastering the details of the postal service. At present he is time to office seekers and their friends, as none of the pilgrims who visit the Post Office Department daily care to commit their claims to the Republican assistants who are still on duty. The consequence is that Mr. Bissell is compelled to listen to minor details, which, under ordinary circumstances, could just as well be considered by the assistants.

Senator Murphy of New York was asked tonight whether the report was true that he would attempt to prevent the confirmation of President Cleveland's New York appointments.

"There is no truth in it whatever," replied the Senator.

"How shout the confirmation of Robert A. Maxwell and Edward Is. Whitney?"

"The New York Senators will do nothing to delay their confirmation. On the contrary, they will aid in having them confirmed."

Only a few clerks and other attaches of the pointed, but the brief list announced to-day develops the fact that nepotism has not been stamped out by the return of the Democrats to power in the Senate. Many other like family appointments will be made within the next few days. pointed, but the brief list announced to-day

The change that has come over the Senate was patent to the most inexperienced observer to-day the army of office seekers who have been thronging the corridors for days past found their way to the Democratic side of the chamber, with the result that nearly every Senator seated there was soon surrounded by groups of men or was obliged in self-defence to flee to the retring rooms or the committee rooms. On the other side of the chamber the Republican Senators sat at their ease and were unmolested observers of the seene. Some of them jokingly complained that they had lost popularity, and the leaders, like Allison, Manderson, Frye, and others, who rarely have a moment to themselves, had leisure to-day to sit quietly and commiserate with their hard-beest colleagues on the Democratic side. Several of the Republican Senators talked earn-stly with Senator Stewart, possibly in explanation of the party necessity which had impelled them to drop him from the minority membership in the Amproprisations Committee. If he feels any soreness over this matter he manages to conceal it very effectually. He professes to be entirely satisfied with his situation, being at liberty to vote with either party or against any measure which does not commend itself to his own judgment, irrespective of party considerations. to-day. Immediately after the Senate adjourned today the Democratic caucus committee resumed its sittings, and took up the question of reorganizing the elective officers of the Senate. It is said that the committee will be ready to report to the full cancus early next week, possibly on Tuesday morning. Whether the Democratis intend to reorganize or not, the Republicans are acting upon the assumption that having the power, they intend to exercise it. It is an open secret that a number of Republican Senators layor an organized opposition to any attempt to reorganize the elective officers at this time. It is also said that a number of more conservative Democrats are in favor of permitting things to remain as they are until the regular session. Two prominent members of the "steering" committee are quoted as being opposed to reorganization at this time, and it may be that a prolonged struggle between the two parties will be prevedted if their advice is followed by the Democratic cancus. As a matter of fact, the Senate has never been reorganized in this particular at a similar extraordinary session. The Republicans attempted it in 1881, but they now say that they desisted from this attempt as soon as they learned that they were violating the precedents of the Senate.

These embryo officials are siming to become thorough it onversant with their duties, so that when they are confirmed they can take hold with a vengeance. They, as well as Assistant Secretary of the Navy McAdoo, are much disappointed at the leisurely way in which the senate is proceeding with regard to their nominations.

Mr. Frederick Penfield of New York is engaged in some mysterious duties at the State Department, said to be in connection with the reception and filing of applications for appointment in the consular service. He has a room next to that of the chief clerk, and his presence there has teen carefully guarded as a secret. It is said he will act as an assistant to Assistant Secretary Quincy until matters get into good running shape, when he will be appointed to a good office in the consular service. Mr. Penfield is said to have hopes of being appointed to the Argentine mission.

Two important conclusions have been reached to-day by Secretary of the Interior Hoke Smith. The first is that no more Land Office cases shall be made special and given consideration out of their regular order, and the second is that "Bishop" John H. Onerly of Illinois shall be an exception to the rule about old officeholders being appointed, and will be made Commissioner of Indian Affairs again. Secretary Smith's decision with regard to the land cases was brought about by the discovery that Commissioner Stone of the General Land Office, who was removed yesterday, has been making cases special in which his son, a lawyer in Oklahoma, is the attorney. The Commissioner has made all arrangements to become his son's logal partner, and the firm feathered its nest in advance. Such cases as they have already given precedence to will retain their places, but hereafter all comers will be treated alike.

Twenty-three clerks of Democratic commit tees and Senate employees were appointed and sworn in to-day. They were as follows:

There are two clerks attached to the most important committees of the Senate who will not be disturbed. Thomas P. Cleaves has been the clerk of the Committee on Appropriations for twenty-two years, and Mr. Cockrell, the present Chairman of that committee, recognizes his valuable services and has announced that he will remain. Benjamin Durse, the clerk of the Finance Committee, will also be retained, but not in his capacity as clerk, that place having been given to the son of Chairman Voorhees. When Mr. Durfee was assigned to the Finance Committee in 1875 that committee had no clerk, but under Mr. Durfee that office has grown to be one of great importance, and he is looked upon as one of the best posted of men on all matters of tariff and finance. His duties will be virtually the same as he has had in the past, although he was appointed under a Senate resolution to compile a history of fariff and revenue laws.

Secretary Carlisle to-day declined to affirm or deny the statement that the revenue cutter Rush, at San Francisco, had been ordered to hold herself in readiness to carry Mr. Blount to Hawaii. It is unofficially stated, however, that the revenue cutter will be placed at Mr. Blount's disposal on his arrival, and unless arrangements can be made for the Pacific Mail steamer, which sails for China on the 23d inst. to touch at Honolulu, Mr. Blount will sail on the Rush. It will take that vessel about a week to make the strip. The supposition that the Rush has been ordered for this duty receives confirmation from the fact that revenue marine officials, who three days ago denied positively that any orders to this effect had been given, were this morning dumb as oysters on the subject. The Secretary of the Interior to-day accepted the resignation of Green B. Raum as Commissioner of Pensions, and has designated Deputy Commissioner Andrew Davidson to take charge of that office until the appointment by the President of Gen. Raum's successor.

Arrangements have been made for a reception of the members of the diplomatic corps by President Cleveland at the White House on Saturday afternoon at 3:30 o'clock. The notifications were sent out from the State Department to-day. The diplomats will then be formally presented to the President, but the visitors will not be in uniform.

What Can Cuticura Do

Ask thousands of tortured and disfigured little babies throughout the land. Everything that is cleansing, purifying, and beautifying for the skin, scalp, and blood of infants and children, the CUTICURA REMEDIES will do. They afford instant relief, permit rest and sleep, and point to a speedy cure in the most agonizing of itching and burning eczemas. They clear the skin of the most distressing scaly, crusted, pimply, and blotchy humors. They cleanse the scalp of dandruff, scales, and crusts, and restore the hair. They purify the blood of simple, scrofulous, and hereditary humors. Thus from a simple blemish to the worst case of scrofula they are equally successful. Everything about these great skin cures, blood purifiers, and humor emedies inspires confidence. They are absolutely pure, and may be used on the youngest infant. They are agreeable to the most refined and sensitive. They are speedy, economical, and unfalling. Cures made in childhood are almost invariably permanent.

Brooklyn Reformers Want the Rates Increased from \$100 to \$200.

Mr. White started the discussion by saying that the cost of maintaining the courts the Charities and Police Departments last year was \$3,431,160, and more than one-half of this aum was fairly chargeable to the drink traffic. In his opinion the taxpayers were obliged to pay more than their adequate share to these expenses, and the coat of licenses should be increased so that the liquor dealers might make a fair contribution. First-class licenses should be increased to \$200, the same as in New York, or to \$250, the limit of the law.

Brawer Scharmann contended that it was no more criminal to make and sell liquor than to engage in the banking and brok-trage business. If the committee was anxious to increase the reveaue from the liquor traffic, there were many clubs, none of which paid any license, which might be brought within the provisions of the law.

Mr. Orr said: "High license to a great extent would diminish the evils of the liquor traffic. This traffic is responsible in a large degree for much of the crime in the city, and it should bear its just proportion of the expense entailed by it. It should bear large proportion of the burden of taxation."

Mr. Jenkins favored a high license on distilled liquors and a moderate license on beer and ale.

Mrs. Guenter fled screaming through the bedroom with her clothing afire. She ran into the rear yard, where she sank unconscious. Her cries attracted Mr. Mareis, who smothered the flames in the woman's clothes with his overcoat. Then he carried her into the hallway and laid her down to await the arrival of an ambulance.

In the mean time smoke was pouring out of the windows of his rooms, and his wife was in imminent danger, though he was totally unaware of the fact. A. G. Gerber, a neighbor, noticed the smoke and ran up stairs. He found Mrs. Mareis standing in the kitchen with flames all about her. Gerber dashed through the smoke and fire, and, carrying Mrs. Mareis into the hallway, found that she was uninjured. When he roturned to the bedroom he found the mattress burning. The flames from Mrs. Guenter's clothing had set the bed aftre as she dashed through the room. Mrs. Mareis had jumped up and fled to the kitchen only to find the table on which the stove stood ablaze, and the grease and turpentine which had caused the trouble blazing in patches all shout the floor.

A committee of Brooklyn reformers had a conference yesterday with Mayor Boody, Police Commissioner Hayden and Excise Com-missioners Cahill and Schliemann in regard to class licenses in that city from \$100 to \$200. The committee included Gen. C. T. Christensen. Alexander E. Orr. George Foster Peabody, ex-Congressman Darwin R James, Alfred T. White, and Charles W. Ide, representing the regular Democratic and Republican organizations, the Prohibition party, Anti-Snappera and Mugwumps. Some of the local brewers and Gallus Thomann, manager of the Liquor Dealers' Literary Bureau, were there. Mr. White started the discussion by saying

While the club has been in existence only
